

BLUMBERG RIBNER, INC.

CONSULTANTS TO HEALTHCARE PROVIDERS

Established in 1988, Blumberg Ribner, Inc. (BRI) specializes in providing reimbursement consulting services for hospitals and health systems, specializing in maximizing the Medicare settlements that hospitals enter into with the Medicare program.

Over the years we have seen the number of reimbursement issues dwindle; however one particular issue, the Medicare Disproportionate Share Hospital (DSH) issue, has steadily gained importance. We are a national expert in Medicare DSH and have a large number of hospitals, for which we've demonstrated proven results by increasing the reimbursement dollars back to the Hospital.

With over 33 years of experience, our team of DSH experts is involved in all aspects of DSH reimbursement, due to its close and frequent involvement with various State Medicaid Offices, Fiscal Intermediaries / MACs, the PRRB, and CMS. Our corporate philosophy combines our experience with a commitment to keeping up with the latest developments, regulations changes and court decisions for the benefit of our clients.

With the recent updates to the SSI ratios from CMS, there has never been a better, or more important, time to develop a strategy for your Hospital's Medicare DSH and Medicare LIP payments with a firm with proven results.
